

2016 CARIP Climate Action/Carbon Neutral Progress Survey Public Report Attestation

As per the CARIP guidance, the Financial Officer is required to submit this attestation form to attest that:

- On or before **June 1, 2017**, the information reported in the 2016 CARIP Climate Action/Carbon Neutral Progress Survey submitted online to the Province has been made public.

The Financial Officer must complete and sign this attestation form by the applicable deadline and email a scanned copy to the Province at infra@gov.bc.ca.

2016 CARIP Climate Action/Carbon Neutral Progress Survey Public Report Attestation Form — DUE on or before June 1, 2017

I declare that the information contained in the 2016 CARIP Climate Action/Carbon Neutral Progress Survey submitted online to the Province on May 31st, 2017 for District of Chetywnd was made public on June 9th, 2017

Name, Title (print) CFO Kevin Franson, Director of Finance

Signature: 

Date: May 31st, 2017

Scanned & Mailed 05/31/17 @ 2:45pm

Survey Template

For the 2016 CARIP Climate Action/Carbon Neutral Progress Survey

The 2016 CARIP Climate Action/Carbon Neutral Survey uses SurveyMonkey® software. SurveyMonkey® acquired FluidSurveys™, which is the software that was used for CARIP reporting for the past 2 years.

Local governments are required to submit the 2016 CARIP Climate Action/Carbon Neutral Progress Survey on or before June 1, 2017.

Local governments are also required to publicly report the information submitted in the 2016 CARIP Climate Action/Carbon Neutral Progress Survey. Local governments can generate a report by:

- creating a report based on the populated Survey Template; or,
- creating a report in another format that contains the information submitted in the 2016 CARIP Climate Action/Carbon Neutral Progress Survey.

In response to local government input, the Survey Template has been created to assist with collecting information for the 2016 CARIP Climate Action/Carbon Neutral Progress Survey, and follows the same structure as the survey.

Responses entered into the Survey Template can be cut and pasted into the online survey. The survey asks for up to five actions in each category, and there is a place in the survey to report additional actions if desired. In the Survey Template, simply add more lines to the tables to report more than five actions.

Use of the Survey Template is recommended. Local governments are encouraged to edit the populated Survey Template and use it for their public report, **as the SurveyMonkey® survey will not enable survey respondents to generate a report of their responses.**

Further information on CARIP can be found on the [Ministry of Community Sport and Cultural Development's website](#).

The Government of BC will not collect, use, or disclose personal information using SurveyMonkey®. Please be aware however that IP addresses are collected by SurveyMonkey® itself, and these IP addresses and other information collected will be stored on SurveyMonkey®'s servers located outside of Canada. Please do not provide any third-party information (i.e. talk about others) in your responses to the survey.

Climate Action Revenue Incentive (CARIP) Public Report for 2016

Local Government:
District of Chetwynd

Report Submitted by:
Name: Linda Kearns
Role: Manager of Financial Services
Email: lkearns@gochetwynd.com
Phone: 250-401-4107

Date: May 31st, 2017

The District of Chetwynd has completed the 2016 Climate Action Revenue Incentive Program (CARIP) Public Report as required by the Province of BC. The CARIP report summarizes actions taken in 2016 and proposed for 2017 to reduce corporate and community-wide energy consumption and greenhouse gas emissions (GHG) and reports on progress towards achieving carbon neutrality.

2016 BROAD PLANNING ACTIONS

Broad Planning Actions

Broad Planning refers to high level planning that sets the stage for GHG emissions reductions, including plans such as Official Community Plans, Integrated Community Sustainability Plans, Climate Action Plans or Community Energy Emissions Plans. Land use planning that focuses on Smart Growth principles (compact, complete, connected, centred) plays an especially important role in energy and GHG reduction.

Community-Wide Actions Taken in 2016	
	Flood Recovery
	Continuation of Air Quality Monitoring
	Continual improvements of walkway lighting, annual carvings added along walkway corridor, Visitor Center incentives, CIC programs, Tree Boulevard Programs and Memorial Benches
	Continuation of upgrade trail system maintenance. Fire fibre growth reducing along community Corridor – 1 km
Community-Wide Actions Proposed for 2017	
	Flood Recovery
	Continuation of the Tree Replacement Program
	Twelve more carvings to be added to our community following the annual Chainsaw Carving Competition
	New Playground Equipment, Crown Sub, Spirit Park, Play Equipment and Portage Stage
	Little Prairie Community Forest Audit, Continual maintenance on our 174 km trail system.

Corporate Actions Taken in 2016	
	Flood Recovery
	World Host Program
	Little Prairie Community Forest Upgrades
	Memorial Benches
Corporate Actions Proposed for 2017	
	Flood Recovery to many areas

Broad Planning

What is (are) your current GHG reduction target(s)?	(Please provide details here) A 1% reduction below the 2007 level of emissions by 2011, and an additional 1% reduction below the 2007 level of emissions each year after 2010 up to 2020, in total a 10% reduction below the 2007 level of emissions by 2020.
Has your local government used the Community Energy and Emissions Inventory (CEEI) to measure progress?	Yes/No
What plans, policies or guidelines govern the implementation of climate mitigation in your community?	Yes/No
• Community Energy and Emissions (CEE) Plan	Yes/No
• Climate Action Plan	Yes/No
• Integrated Community Sustainability Plan	Yes/No
• Official Community Plan (OCP)	Yes/No
• Regional Growth Strategy (RGS)	Yes/No
• Do not have a plan	Yes/No
• Other:	Yes/No
Does your local government have a corporate GHG reduction plan?	Yes/No
Does your local government have a climate reserve fund or something similar?	Yes/No

2016 BUILDINGS AND LIGHTING ACTIONS

Building and Lighting Actions

Low-carbon buildings use the minimum amount of energy needed to provide comfort and safety for their inhabitants and tap into renewable energy sources for heating, cooling and power. These buildings can save money, especially when calculated over the long term. This category also includes reductions realized from energy efficient street lights and lights in parks or other public spaces.

Community-Wide Actions Taken in 2016	
	Lighting upgrades at the airport hangar building
	New Pathway lighting will be LED
	Our new Sewer Lagoons facility is Energy efficient because we can control how much electricity is going through the blowers
	Visitor Center – all lighting and bulb fixtures were replaced, Forestry house had a window, lighting and all bulb fixtures replaced
	Rec Center – Ice surface light bulbs replaces every other year to provide optimum lighting.
	Rec Center – T-8 energy efficient light fixture conversion as required in the Lower Cottowood stairwell and pool mechanical room. All Rec Center and Main Pool lights (12) were replaced
Community-Wide Actions Proposed for 2017	
	More new low voltage LED lighting along existing walkways
	Proposed new pathway lighting will be LED
	Rec Center – Concrete Slab is being replaced – will create better energy efficiency with the brine lines being one inch below the concrete. Dehumidification and ventilation installation will result in less humidity in the air resulting in less heat load on the ice surface resulting in less compressor run

	time and thus less power consumption. Less heat load will also result in better ice conditions. Will also eliminate condensation on the glass.
	Replacement of the shell and tube chiller to a plate and frame chiller will also reduce the current 1000 pounds of ammonia charge in the system to approximately 600 pounds creating a slightly safer environment.

Corporate Actions Taken in 2016	
Corporate Actions Proposed for 2017	

2016 ENERGY GENERATION ACTIONS

Energy Generation Actions

A transition to renewable or low-emission energy sources for heating, cooling and power supports large, long-term GHG emissions reductions. Renewable energy including waste heat recovery (e.g. from biogas and biomass), geo-exchange, micro hydroelectric, solar thermal and solar photovoltaic, heat pumps, tidal, wave, and wind energy can be implemented at different scales, e.g. in individual homes, or integrated across neighbourhoods through district energy or co-generation systems.

Community-Wide Actions Taken in 2016	
Community-Wide Actions Proposed for 2017	

Corporate Actions Taken in 2016	
Corporate Actions Proposed for 2017	

Energy Generation	
Is your local government developing, or constructing:	
• A district energy system	Yes/No
• A renewable energy system	Yes/No
Is your local government operating:	
• A district energy system	Yes/No
• A renewable energy system	Yes/No
Is your local government connected to a district energy system that is operated by another energy provider?	Yes/No
Are you aware of the Integrated Resource Recovery guidance page on the BC Climate Action Toolkit ?	Yes/No

2016 GREENSPACE/ NATURAL RESOURCE PROTECTION ACTIONS

Greenspace Actions

Greenspace/Natural Resource Protection refers to the creation of parks and greenways, boulevards, community forests, urban agriculture, riparian areas, gardens, recreation/school sites, and other green spaces, such as remediated brownfield/contaminated sites as well as the protection of wetlands, waterways and other naturally occurring features.

Community-Wide Actions Taken in 2016	
	Flood Recovery
	Replanted boulevard trees
	Landscaping around new energy efficient municipal hall is a zero maintenance and zero water

	consumption.
	Tree planting and replacement program
	New lighting on boulevard
Community-Wide Actions Proposed for 2017	
	Flood Recovery
	Continual process of replanting boulevard trees, and another section of deaerating trees to be taken down and replanted
	Boulevard walkways and upgrades
	Tree Planting (BC Hydro and Tree Canada Applications)
	BC Bike – did not get grant but did 1km walkway improvements Gazebo/benches/tables project and improvements 174 km trail maintenance Managing fibre fuel/hazards to reduce fire risk to the old growth and debris (1Km)
	Ball park improvements, 3 new dugouts with water drainage, aerating and reseeding, new netting and safety guard rails and fencing, tree trimming

Corporate Actions Taken in 2016	
	Flood recovery
	Community Forest further expansion of trails (10km)
	Pitch in week, community involved garbage clean up through the community
	Brown site cleanup (Texaco site) – parking area cleaned up
Corporate Actions Proposed for 2017	
	Flood Recovery
	Waste Community – New Compost and renewal box system
	West Fraser Bio Energy Plant and Canfor Pellet Plant ongoing projects in our community
	New CIBC bank – designed to be energy efficient, wood foundation
	New greenspace and improvements for reducing area brush and replant near carvings and areas near extended parking lots.

Greenspace	
Does your local government have urban forest policies, plans or programs?	Yes/No

2016 SOLID WASTE ACTIONS

Solid Waste Actions

Reducing, reusing, recycling, recovering and managing the disposal of the residual solid waste minimizes environmental impacts and supports sustainable environmental management, greenhouse gas reductions, and improved air and water quality.

Community-Wide Actions Taken in 2016

	Supporting NEAT to promote water conservation and recycling management
Community-Wide Actions Proposed for 2017	
	Foundation of a solid waste and recycling task group
	Food security/Community Garden and Partners Market Expansions

Corporate Actions Taken in 2016	
Corporate Actions Proposed for 2017	

Solid Waste	
Does your local government have construction and demolition waste reduction policies, plans or programs?	Yes/No
Does your local government have organics reduction/diversion policies, plans or programs?	Yes/No

2016 TRANSPORTATION ACTIONS

Transportation Actions

Transportation actions that increase transportation system efficiency, emphasize the movement of people and goods, and give priority to more efficient modes, e.g. walking, cycling, ridesharing, and public transit, can contribute to reductions in greenhouse gas emissions and more livable communities.

Community -Wide Actions Taken in 2016	
	Flood recovery
	Nicholson road project to Hwy 29 opened
	Ride Sharing – BC Bike grant project
	Imagine Chetwynd program bike/walk adventures – successful Visitor Center program

Community-Wide Actions Proposed for 2017	
	Flood recovery
	Continue to upgrade boulevard walkways
	Spending \$ 450,000.00 on road upgrades
	Airport runway is being re-paved
	Expanding the ride sharing to use on the trail systems, and used as cross country trails in the winter time.

Corporate Actions Taken in 2016	
Corporate Actions Proposed for 2017	

Transportation	
Does your local government have policies, plans or programs to support:	
• Walking	Yes/No
• Cycling	Yes/No
• Transit Use	Yes/No
• Electric Vehicle Use	Yes/No
• Other (please specify)	Yes/No
Does your local government have a transportation demand management (TDM) strategy (e.g. to reduce single-vehicle occupancy trips, increase travel options, provide incentives to encourage individuals to modify travel behavior)?	Yes/No
Does your local government have policies, plans or programs to support local food production (thus reducing transportation emissions)? Community Garden	Yes/No

2016 WATER AND WASTEWATER ACTIONS

Managing and reducing water consumption and wastewater is an important aspect of developing a sustainable built environment that supports healthy communities, protects ecological integrity, and reduces greenhouse gas emissions.

Community-Wide Actions Taken in 2016	
	Reconstructed our sewer lagoon treatment plant. Brought our levels down to below provincial guidelines while decreasing electrical cost by 40%
	Continued with infiltration program
	Promote water conservation
Community-Wide Actions Proposed for 2017	
	Construction of a new energy efficient water treatment plant

Corporate Actions Taken in 2016	
Corporate Actions Proposed for 2017	
Water Conservation	
Does your local government have water conservation policies, plans or programs?	Yes/No

2016 CLIMATE CHANGE ADAPTATION ACTIONS

Climate Change Adaptation Actions

For local governments, adaptation to a changing climate can take the form of changes in policy, management, technology and behaviour that minimize negative impacts or exploit opportunities. It can involve both “hard” and “soft” solutions, including: changes in infrastructure engineering, planning, zoning, bylaws, and public education.

Climate Change Adaptation Actions Taken in 2016	

Climate Change Adaptation Actions Proposed for 2017	

Resources you have used to support climate change adaptation (e.g. Plan2Adapt , Preparing for Climate Change: Implementation Guide)	

In 2016 did you consider climate change impacts in any of the following areas? (check if yes)	
Risk reduction strategies	No
Risk and Vulnerability assessment	Yes
Asset management	No
Infrastructure upgrades (e.g. stormwater system upgrades)	Yes
Cross-department working groups	No
Emergency response planning	Yes
Land-use policy changes (eg. OCP, DPA)	No
Economic diversification initiatives	No
Ecosystem-based approaches (incl. shorelines)	No
Incentives (e.g. property owner reducing stormwater run-off)	No
Public education and awareness	No
Research (e.g. mapping, participation in studies)	No
Other (Please Identify):	

2016 OTHER CLIMATE ACTIONS

Other Climate Actions

This section provides local governments the opportunity to report other climate actions that are not captured in the categories above.

Community-Wide Actions Taken in 2016

	Flood Recovery Projects
Community-Wide Actions Proposed for 2017	
	Flood Recovery

Corporate Actions Taken in 2016	
Corporate Actions Proposed for 2017	

Other	
Are you familiar with the Community Lifecycle Infrastructure Costing Tool (CLIC) ?	Yes/No
Have you used CLIC?	Yes/No

INNOVATION AND PEER-TO-PEER LEARNING

Innovation

This section provides the opportunity to showcase an innovative Corporate and/or Community-Wide GHG reduction or climate change adaptation activity that your local government has undertaken and that has had or has the potential to have a significant impact. Projects included here may be featured as success stories on the B.C. Climate Action Toolkit and/or shared with other local governments to inspire further climate action. Please add links to additional information where possible.

Community-Wide Innovative Action

Corporate Innovative Action

Programs, Partnerships and Funding Opportunities

Local governments often rely on programs, partnerships and funding opportunities to achieve their climate action goals. Please share the names of programs and organizations that have supported your local government’s climate actions by listing each entry in the box below.

Programs and Funding
PRRD (Peace River Regional District) Ministry of Community, Sports and Cultural Development

2016 CARBON NEUTRAL REPORTING

Local governments are required to report on their progress in achieving their carbon neutral goal under the Climate Action Charter. Working with B.C. local governments, the joint Provincial-UBCM Green Communities Committee (GCC) has established a common approach to determining carbon neutrality for the purposes of the Climate Action Charter, including a Carbon Neutral Framework and supporting guidance for local governments on how to become carbon neutral.

Prior to completing this survey, please ensure that you are familiar with guidance available on the B.C. Climate Action Toolkit website, especially Becoming Carbon Neutral: A Guide for Local Governments in British Columbia.

Reporting Emissions

Did you measure your local government's corporate GHG emissions in 2016?	Yes/No
If your local government measured 2016 corporate GHG emissions, please report the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent) from services delivered <u>directly</u> by your local government:	924.22

If your local government measured 2016 corporate GHG emissions, please report the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent) from <u>contracted</u> services:	
TOTAL A: CORPORATE GHG EMISSIONS FOR 2016	tCO2e

Reporting Reductions and Offsets

To be carbon neutral, a local government must balance their TOTAL corporate GHG emissions by one or a combination of the following actions:

- undertake GCC-supported Option 1 Projects
- undertake GCC-supported Option 2 Projects (community GHG emissions reduction projects that meet project eligibility requirements)
- purchase carbon offsets from a credible offset provider

If applicable, please report the 2016 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 1 GHG Reduction Projects:

OPTION 1 PROJECTS	REDUCTIONS
Energy Efficient Retrofits	
Solar Thermal	
Household Organic Waste Composting	
Low Emission Vehicles	
Avoided Forest Conversion	
TOTAL B: REDUCTIONS FROM OPTION 1 PROJECTS FOR 2016	tCO2e

If applicable, please report the names and 2016 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 2 GHG Reduction Projects:

OPTION 2 PROJECT NAME	REDUCTIONS

TOTAL C: REDUCTIONS FROM OPTION 2 PROJECTS FOR 2016	tCO2e
-----------------------------------------------------	-------

If applicable, please report the number of offsets purchased (in tonnes of carbon dioxide equivalent (tCO2e)) from an offset provider for the 2016 reporting year:

(NOTE: DO NOT INCLUDE ANY FUNDS THAT MAY BE SET ASIDE IN A CLIMATE ACTION RESERVE FUND)

OFFSET PROVIDER NAME	OFFSETS
TOTAL D: OFFSETS PURCHASED FOR 2016	tCO2e

TOTAL REDUCTIONS AND OFFSETS FOR 2016 (Total B+C+D) = tCO2e

Corporate GHG Emissions Balance for 2016

Your local government's Corporate GHG Emissions Balance is the difference between total corporate GHG emissions (direct + contracted emissions) and the GHG emissions reduced through GCC Option 1 and Option 2 projects and/or the purchase of offsets.

CORPORATE GHG EMISSIONS BALANCE FOR 2016 = (A – (B+C+D)) = tCO2e

If your Corporate GHG Emissions Balance is negative or zero,
your local government is carbon neutral.
CONGRATULATIONS!

GCC CLIMATE ACTION RECOGNITION PROGRAM

Green Communities Committee (GCC) Climate Action Recognition Program

The joint Provincial-UBCM Green Communities Committee (GCC) is pleased to be continuing the Climate Action Recognition Program again this year. This multi-level program provides the GCC with an opportunity to review and publicly recognize the progress and achievements of each Climate Action Charter (Charter) signatory.

This year a new recognition level has been added – **Level 3: Accelerating Progress on Charter Commitments**–. Recognition is provided on an annual basis to local governments who demonstrate progress on their Charter commitments, according to the following:

Level 1 – Demonstrating Progress on Charter Commitments: for local governments who demonstrate progress on fulfilling one or more of their Charter commitments

Level 2 – Measuring GHG Emissions: for local governments that achieve level 1, and who have measured their Corporate GHG Emissions for the reporting year and demonstrate that they are familiar with the Community Energy and Emissions Inventory (CEEI)

Level 3 – Accelerating Progress on Charter Commitments: for those local governments who have achieved level 1 and 2 and have demonstrated undertaking significant action (corporately or community wide) to reduce GHG emissions in the reporting year (ie: through undertaking a GHG reduction project, purchasing offsets, establishing a reserve fund).

Level 4 - Achievement of Carbon Neutrality: for local governments who achieve carbon neutrality in the reporting year.

For purposes of Level 3 recognition, if applicable, please identify any new or ongoing corporate or community wide GHG reduction projects (other than an Option 1 or Option 2 project) undertaken by your local government that reflects a significant investment of time or financial resources and is intended to result in significant GHG reductions:

PROJECT NAME:

Based on your local government's 2016 CARIP Climate Action/Carbon Neutral Progress Survey, please check the GCC Climate Action Recognition Program level that best applies:

Level 1 – Demonstrating Progress on Charter Commitments	
Level 2 – Measuring GHG Emissions	
Level 3 – Accelerating Progress on Charter Commitments	
Level 4 - Achievement of Carbon Neutrality	
Not Sure
