

The District of Chetwynd wishes to unequivocally denounce racist statements that have recently been shared by Pouce Coupe Mayor Lorraine Michetti. Statements that are racist, biased, hostile or advocate a stereotypical view of any sector of our population have no place in today's society, whether done in public or private, on social media or in face to face communications. The District of Chetwynd values and respects our First Nations residents and neighbours, and appreciates all opportunities to build our community together in the past, present and future. As a Director on the Peace River Regional District Board, Mayor of Chetwynd and a person of Indigenous background, I am appalled by the comment made by my peer that was motivated by systemic racism.

Mayor Allen Courtoreille
